SCANCHANGE MINI

Automatic Currency Exchange Machine

SCANCHANGE MINI provides your foreign clientele with an exchange service available 24 hours a day and 7 days a week, of an extreme operating simplicity. Compact, with complete front opening access, it is stylishly designed to fit in your Hotel lobbies, Casino entrances, banking areas, cruise ships, exchange offices, shopping centers, etc.

SCANCHANGE MINI exchanges up to 4 foreign currencies in 20 denominations you can choose from a library of 60 different currencies, into domestic currency dispensed in bills and coins for small change. Easy change of the accepted currencies by replacing the scanner head module of the readers to meet your exchange requirements.

SCANCHANGE MINI generates high revenue commissions & rates, increases the exchange turnover, does automatically the daily accounting. It is reliable and safe, monitored by a PC and can be remotely controlled through its OnLine system option.

- Foreign currencies banknotes recognition : WBA-SS mono-currency banknote reader from JCM. Machine basically delivered with 2 readers for 2 currencies. Available option for delivery with 4 readers to accept 4 currencies. Change of the accepted currencies by replacing the scanner head module of each reader already installed inside the machine.

- Note dispensing module : NMD50 from DeLaRue with 2 cassettes of 2000 notes each, dispensing the countervalue in 2 denominations of the local currency banknotes.

- Coin dispensing modules : 2 MK4 Hoppers containing about 1000 coins each, dispensing the small change in 2 denominations of the local currency.

- Printer for client receipt and daily journal : High definition thermal printer with automatic paper cutting and front rejection exit.

- Client interface : High definition alphanumeric display, 4 lines of 20 types and high intensity back light. It displays all useful information to customer, with exchange rates, commissions and transaction details. Detailed stickers and pictograms for operating mode. 4 flashing buttons to select his currency to exchange into local currency at the beginning of the operation. 1 other flashing button to validate his operation and receiving his countervalue and detailed receipt (automatic payment after 1mn if no valid button is activated).

- Operator interface : Same display, with service menu (turnover, exchange rates, stock levels...) and technical menu (machine configuration, peripheral test...) Numeric computer keypad.

- Data processing : High performance Personal Computer.

- Machine opening : Front access door with 5 bolts-door. Safe type key. 3 mm thick steel door.

- Casing : 3 mm thick steel armoring.

- Standard color : Hammered black. Other colors on option.
